Senior Full Stack Developer

React.js | Node.js | Next.js

SUMMARY

Results-driven Senior Full Stack Developer with 7+ years of experience designing scalable, high-performance web applications using React.js, Node.js, and Next.js. Skilled in frontend architecture, API integration, real-time systems, and payment gateway implementation within Agile teams. Proven track record delivering user-centric solutions across e-commerce, travel, and fintech for international clients.

EXPERIENCE

Senior Software Developer

Aug 2025 – Present

Pied Piper Group LLC | Remote, USA

- Lead development of scalable, production-grade web applications using React.js, Node.js, and Next.js for a US-based client.
- Design system architecture and drive performance optimizations; enforce clean, well-tested code through structured reviews.

Full Stack Developer

Jan 2022 – Jul 2025

Upforce Tech | Ahmedabad, India

- Built and maintained responsive web applications and reusable UI components using React.js and Node.js, improving UX and dev speed.
- Integrated multiple third-party APIs, payment gateways, and Socket.io-based real-time features into production systems.
- Key Project — Virgin Voyages: Built a cruise-booking platform in React.js, improving cross-device performance and integrating booking, payment, and user-management APIs.

React & Node.js Developer

Apr 2019 – Dec 2022

Depthin Solution | Surat, India

- Built full-stack applications end-to-end, designing backend systems, database schemas, and admin dashboards.
- Key Project — MaxGiving: Donation and live-bidding platform with Admin/User panels, payment systems, and real-time bidding.
- Key Project — Start Mall: React Native/Ionic e-commerce app with product management, cart, and order-tracking.
